APPENDIX “RISK MAP” · RISK MANAGEMENT POLICY · METHODOLOGY AND TEMPLATE

Assessment grid and risk map template

Version 0.9
Internal

Completed by RCCI, with the risk owners **Frequency** Annual update and upon each significant event **Kept by** RCCI · submitted to COSUMAF before 31 March

Rating. Each risk is given a probability score and an impact score from 1 to 4. The risk level is the product of the two: **1 to 3 low · 4 to 6 moderate · 8 to 9 high · 12 to 16 critical.**

Score	Probability	Financial impact	Client, regulatory or reputational impact
1	Rare: less than once in five years	Less than FCFA 1,000,000	No client affected; no breach
2	Possible: once in two to five years	FCFA 1 million to 10 million	A few clients affected, with no loss; minor breach corrected
3	Likely: once a year	FCFA 10 million to 30 million	Loss for clients; COSUMAF observation; press article
4	Frequent: several times a year	More than FCFA 30 million or own funds threshold reached	COSUMAF sanction; licence called into question; loss of partners

Risk map template (rows given by way of example, to be completed and rated at the first review).

No.	Category	Risk	Main cause	Gross probability	Gross impact	Control measures	Net level	Owner	Action plan and deadline
1	Solvency	Own funds below the regulatory minimum	Losses in the first financial years			Monthly monitoring, alert threshold, budget (Art. 13)		Chief Executive Officer	
2	Safekeeping	Discrepancy in client assets	Omnibus account with an account keeper, data entry error			Daily and monthly reconciliations (Art. 17)		Chief Executive Officer	
3	Operational	Dependence on a key person	Small headcount			Deputies, written procedures (Art. 18)		Chief Executive Officer	
4	Information systems	Intrusion or data loss	Phishing, external service provider			Strong authentication, backups (Art. 19)		Chief Executive Officer
