APPENDIX “PRE-LAUNCH CHECK” · TRANSACTION COMMITMENT AND APPROVAL POLICY · CHECKLIST

Checklist before launching a new product or a new activity

Version 0.9
Internal

Completed by Project sponsor, checked by the RCCI **Frequency** Before any launch, then a review six months later

Kept by RCCI (compliance file), together with the form in Appendix “New product approval” of the Risk Management Policy

This checklist supplements the risk analysis form of the Risk Management Policy (Appendix “New product approval”). It checks that everything is ready before the launch. Any item not met blocks the launch, unless the decision-maker grants a reasoned exemption.
